

Understanding Stuff

Arduino Nano

Notes:

Programming software available at:

<https://www.arduino.cc/en/Main/software>

Settings for the Arduino IDE:

- Tools → Board → select: **Arduino Nano**
- Tools → Processor → select: **ATmega328P (Old Bootloader)**
- Tools → Port → (for Windows) use a COM port **greater than** COM2
(for MAC) use: **/dev/cu.usbserial-1420**
(for Linux) use: **/dev/ttyUSB0**
